

165-Bottle Freestanding Wine Cooler

VT-165TSRV

Organize and store your wine collection in this attractive 165-Bottle Freestanding Wine Cooler. Featuring seamless, all-glass technology, this cooler has room to store up to 165 bottles on fourteen black wire shelves and 1 bulk storage section. A digital temperature controller located at the top of the cooler allows you to see and set the temperature without having to open the cooler door. The interior LED lighting creates a gorgeous display and makes it easy to find your favorite bottles. Stainless trim, a recessed handle, and door lock add to the style and functionality of this cooler. This unit is ideal for the wine buff that is looking to store their small to medium sized wine collection.
